Caring for the Whole Child

Working Together for the Health and Well-Being of Infants, Toddlers and Their Families

Sunday, May 17 - Tuesday, May 19, 2015 • Kalamazoo, Michigan

34th Biennial Conference Program

2015 MI-AIMH Biennial Conference

at Radisson Hotel and Suites in Kalamazoo

Welcome!

This program contains the information you will need while you are here with us at the conference. Please take a moment to read through the program booklet. If you still have questions, please return to the registration tables where someone can assist you.

Please set your electronic device to SILENT mode to ensure a productive learning environment for all.

- Folders contain training materials, name badge, workshop tickets (based on your selections), special event tickets, promotional items, and a CD with supplemental training materials.
- Workshops: We are excited to have over 600 attendees this year. Please honor the workshop choices you made when you registered. Moderators will be collecting your tickets as you enter each session. Many of the workshops are at their maximum capacity. If you are interested in changing your session, please go to the registration tables. We can accommodate changes based on availability.
- Evaluations: Your suggestions are important to the conference planning committee. We want to hear from you! Please complete our online survey; a link will be emailed to you after the conference.
- Kalamazoo Activities: The Kalamazoo County Convention and Visitors Bureau will have a resource table set up near the registration tables.
- Lactation Facilities: Please see the registration tables for a key to the lactation facilities.
- Parking: For Radisson hotel guests, parking will be handled at the front desk when guests check-in (if you are arriving on Sunday, check-in will not be available until 5:00 pm. It is recommended that you park in the hotel structure, leave your luggage in your car and walk over in the skywalk). Self-parking for hotel guests is \$10/day/vehicle.

All other attendees must take a white ticket upon entering the Radisson ramp. When event attendees check-in to the conference they will receive a green ticket. If an attendee is parking their vehicle for longer than five hours, then the green ticket discounts the parking fee to \$10/day. To redeem the discount, insert the white ticket followed by the green ticket upon exiting the ramp. For vehicles parked in the ramp less than 5 hours, it would be more expensive to use the green ticket.

Other parking options are available in the downtown area. A parking map is can be found at http://www.vceonline.org/MI-AIMH-Conf-2015

• Checkout: Before you leave the conference for the final time, you must see Conference Staff, they will have a "Facilitator" ribbon on their name tag, to have your final conference check-out. Staff will total your hours, review and initial your form. MI-AIMH/VCE keeps the yellow copy and you keep the white copy for your records.

Even if you do not need training hours or CEU's, it is still very important that we collect the yellow copy for our evaluation and data of this conference. This is YOUR certificate and proof of attendance. Please note, this is the *ONLY* verification form that will prove your attendance here with us.

Healthy Lives Sponsors

In loving memory of Jack M. Stack, MD **Starfish Family Services** is a nonprofit agency serving vulnerable children and families in metropolitan Detroit. Not only a provider of Early Head Start and Head Start programs, Starfish also offers: parenting programs, children's mental health services, after-school programs, and an emergency shelter for teens and youth in crisis.

Development Centers, Inc. provides mental health treatment, employment and housing support for children, adults and families and Early Head Start, Head Start and Early On services for very young children.

Bronson Children's Hospital, located at Bronson Methodist Hospital in Kalamazoo, Michigan, provides specialized services in virtually every area of children's medicine. It is southwest Michigan's only children's hospital.

Metropolitan Detroit Association of Infant Mental Health provides professional development for those working with, or on behalf of, infants and young children and their caregivers - to enhance the quality of relationship-based services to families.

Children's Trust Fund serves as Michigan's only statewide organization dedicated to the prevention of child abuse and neglect. We promote the health and well-being of Michigan's children and families by funding local prevention councils and direct service programs. To learn more about the Children's Trust Fund and ways to get involved, please visit www.michigan.gov/ctf.

Michigan State University School of Social Work offers advanced standing 10 month, 2 or 3 year programs in various locations & Best of Both Worlds Hybrid Online-in person blended programs!

UnitedHealthcare Community Plan "Help People Live Healthier Lives" is our central theme of who we are. United Healthcare Community Plan of Michigan serves 25 counties from lake to lake; which allows us to provide comprehensive Medicaid coverage to more than 250,000 members. Members enjoy such benefits as unlimited travel to doctors' appointments and access to more than 10,000 physicians and specialists throughout our service area. In addition, we're always looking for new opportunities to partner with organizations that share our commitment to helping build healthier communities.

Eastern Michigan University College of Health and Human Services offers a diverse educational opportunity in the high demand fields of Social Work, Nursing, Health Sciences, and Health Promotion and Human Performance.

Gratiot County Community Mental Health empowers individuals to improve the quality of their lives through recovery-oriented, supportive services. Our commitment to early intervention is evidenced by the provision of Infant Mental Health services for over 30 years.

The Guidance Center Parent Infant Program is a prevention and intervention program for families with children six and under. Our goal is to help parents support early parent-child relationships.

In loving memory of Jack M. Stack, M.D., a pioneer in the field of Infant Mental made by his children and grandchildren. We strive to honor his legacy in all we do.

Meet the Baby Bench Card

The newest addition to the MI-AIMH resource library is an easy-to-use reference tool for anyone working with children ages 0 to 3 involved in the child welfare system.

Three sections provide windows into important considerations for child welfare professionals, based on the baby's developmental age:

- How the world looks to the baby
- What a judge, attorney, or foster care worker should ask
- Suggested weekly visitation guidelines based on the state of the child/parent relationship

If you make or inform decisions about out-of-home placement, custody, and parenting time of children birth to three, this card is for you.

Learning and growing together.

A very special thanks to the MI-AIMH board and volunteers for their vision, wisdom, and wholehearted commitment to bringing the Baby Bench Card to life:

Kathleen Baltman, Brooke Foulds, Mary Beth Reimer, Marc Stanley, and Greg Proulx (of blessed memory).

Proof of Attendance & Continuing Education

MI-AIMH welcomes attendees from a wide range of professional disciplines. The 2015 conference has been approved to provide 14.0 clock hours of continuing education credits for a variety of professionals.

In order to show proof of attendance for all participants, you MUST keep the 2-ply **Verification and Certificate of Attendance** with you at all times during this conference. This document is your entrance ticket into each session (including keynotes) where a monitor will sign you in and out.

Every participant will use the same Verification and Certification of Attendance that will serve as your:

- Proof of attendance
- Proof of training hours
- Proof for Continuing Education Credits for the following:
 - Licensed Social Workers
 - Licensed Professional Counselors
 - Children's Mental Health Professionals
 - o MI-AIMH Endorsement Hours

O SCECH* - It is vital that you check this box on your form as there are follow-up steps to secure these credits. Also be sure to pick up the blue SCECH Information Memo at the registration tables.

Participants must arrive on time and remain in the training for its entirety (including Q&A) to receive the full amount of training hours/continuing education credits. Late arrivals and early departures will result in the deduction of awarded hours/credits. The approval bodies require deductions in 30-minute increments.

Information on Where to "Check-In": Each day before the Keynote Address, you will need to "sign-in" and have your form initialed. You can do that at the check in area, the same place you received your initial packet OR at the Arcadia Ballroom entrance doors.

Information on How to "Check-Out": When you are ready for your final check-out, Conference Staff will total your hours, review and initial your form and separate it, giving you the white copy to retain for your records/proof of attendance. VCE will keep the bottom, yellow copy.

Looking at the Big Picture: How to Integrate the Whole Child's Health in the Context of

Neglect and Cross-Sectored Communities

Speaker: Connie Lillas, PhD, MFT, RN

This presentation addresses the multiple needs of high-risk infants and young children in the context of fragmented service delivery systems. The "whole child's health" will be understood from the context of how neglect creates a "double jeopardy" situation. Not only are brain circuits that exist prone towards corruption from toxic stress, the "serve and return" process in relationships is often absent, neither firing nor wiring necessary brain connections. While the immediate consequences of neglect are often the focus of interventions, the long-term consequences of neglect are often "neglected" in our service delivery systems. Three long-term consequences of neglect will be clinically addressed and how to create healthy cross-sectored communities using the Neurorelational Framework (NRF) that can address child welfare needs from an integrated perspective across domains of medical health, developmental health, mental health, and educational health will be highlighted. A video-based case study of an infant/toddler in the child welfare system will be shown to illustrate cross-sectored collaboration.

Building Brains, Forging Futures: A Call to Action for the Family-Centered

Medical Home

Speaker: Colleen Kraft, MD

The science of early brain development and the recognition of the effect of social determinants in the life course trajectory of children has revolutionized our understanding of the role of the Family-Centered medical home. This presentation will outline what is behind our understanding of how early childhood medical care should be provided. Discussions on adverse childhood experiences, developmental neuroscience, and translating this science into medical care that empowers parents and caregivers to raise successful children will be highlighted. Changes in the Family-Centered medical home, including new members, processes, and an emphasis on population health will be discussed.

prepare to exit.
I have spent a lifetime
caring for others
and trying to offer a hand
to those who could not stand alone.
It touches my heart
as I prepare to depart
to see you continuing my work
and doing your part
with gentle, kind caring for others
in schools, clinics, hospitals, churches and homes.
~ Jack M. Stack, MD, 2003
